

Strain relief in fire protection ducts

Holder for the secure fastening of cables in
vertical installations

Universal cable bracket for the vertical installation of cables in PYROLINE® Con fire protection ducts made of fibre glass-reinforced, lightweight concrete, as well as PYROLINE® Rapid made of sheet steel with an internal coating.

The holders are pushed over the head of the loosened fastening screw and then screwed tight with it.

The cables can be fastened using cable ties on the lugs or in the slots of the holder. With at least 2 cable brackets per metre of the installation, the cable weight is supported safely and reliably.
